T&T CYBERSEC

T&T CYBERSEC was founded in 2020 by two students from the Béziers IUT: Thimotée and Titouan. The idea of creating the company was born after Thimotée couldn't show his portfolio site to the teacher because it was DDoSed. Over the years, the company has become a major player in IT security, developing innovative solutions to protect against various threats. FEARLESS DEFENDERS' MISSION is to offer its customers peace of mind by guaranteeing seamless protection against online threats.

Why This name

T&T CYBERSEC is the name of the union between the 2 T: Timothe and Titouan

And their desire to protect other people from suffering what Timothe did.

It's a fitting name for a company specializing in protection against viruses and malware.

Our scareware awareness video

In this video, we wanted to convey a message to raise awareness and explain to people the dangers of DDOS, and that's repercussion.

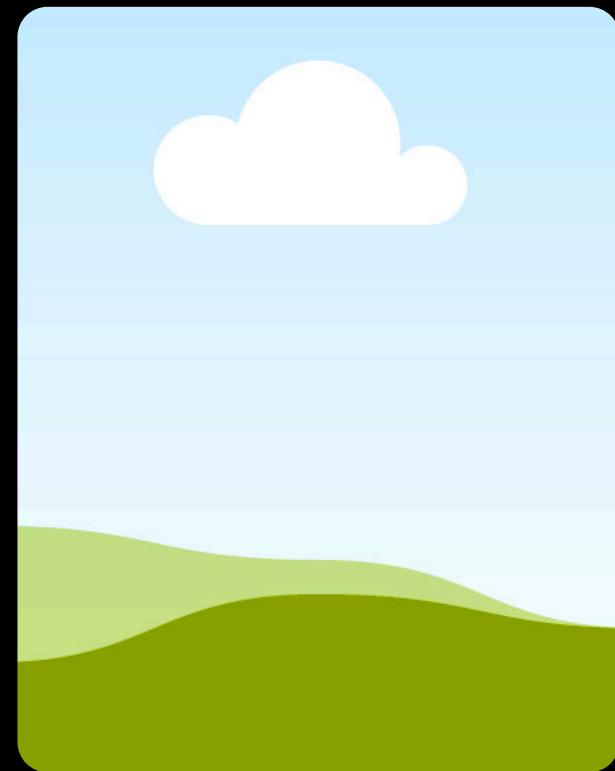

THE TEAM

Thank you for your time! Reach out to us for questions.

**TITOUAN
MOUYSSET**
DIRECTOR

**TIMOTHE
SOUCHET**
